### Save the Date

**WEBINAR: 10 Things You Can Do Right Now to Save Money through Better Time and Labor Management Practices**

November 20th at 1:00pm CST

With the current economic challenges that most organizations are facing, companies of all sizes are searching for ways to positively impact their bottom lines. Identifying operational efficiencies and implementing "Best Practices" are excellent ways to cut costs while positively affecting the way they conduct business. These opportunities certainly exist in the area of Time and Labor Management.

On November 20th, experts from American EPAY will share 10 ways to cut costs immediately through proven Time and Labor Management tools and processes. These ideas are based on results from American EPAY clients and independent research from leading consulting firms that specialize in time and Labor issues.

Join American EPAY on November 20th and discover how to start saving your company money immediately by adopting a few seamless and positive processes to your current operation.

The advice is free but the knowledge is priceless.

### Important News and Facts

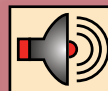

#### American EPAY is Growing

To support the expansion of the business, the American EPAY office has moved to a larger location. Please note the new office address located at the bottom of this newsletter. Phone numbers and other contact information will remain the same.

#### American EPAY, Inc Receives ISO 9001-200 Certification

The American EPAY Chicago Headquarters location has received its official Certificate of Registration indicating its Quality Management System complies with all requirements of the internationally-recognized ISO 9001:2000 Quality Standard. Specifically, American EPAY's quality system meets or exceeds the ISO quality requirements for "the design, development, implementation, and service of time and labor management solutions," according to the accreditation organization.
